

Description	Interlocking rubber tiles are a type of flooring made from rubber material that can be locked together to create a stable and durable surface. They are commonly used in gyms, play areas, and other high-traffic areas due to their ease of installation, shock absorption, and slip-resistant properties.
Application	Gyms, fitness, and sports facilities, play areas, and educational facilities.
Material	100% SBR
Thickness	20mm
Tile Size	50cm x 50 cm OR 1m x 1m
Colors	Black

INTERLOCKING TILES - 20MM
