

<b>Description</b>	Rubber underlay is a type of padding material used beneath flooring surfaces. It is designed to provide cushioning, reduce noise and absorb impact, thereby extending the lifespan of the flooring. Rubber underlay is also water-resistant and can help prevent moisture damage to the subfloor. It is offered in rolls and sheet.
<b>Application</b>	Under screed beds and other floating floors, timber flooring, ceramic tiles for both residential and commercial use.
<b>Material</b>	Recycled rubber granules and polyurethane elastomers.
<b>Roll Size</b>	5mm and 10mm = 1.5 x 24m
<b>Sheet Size</b>	8mm = 2.25m x 1.15m 5mm = 2.25m x 1.5m 10mm = 2.25 x 1.15
<b>Colors</b>	black
